Golf 3D Visualization isn't just our business, it's our hobby

GeoShot Technologies

is a fully diversified Golf Course Modeling and 3D Visualization services company with worldwide experience of designing all type of golf courses.
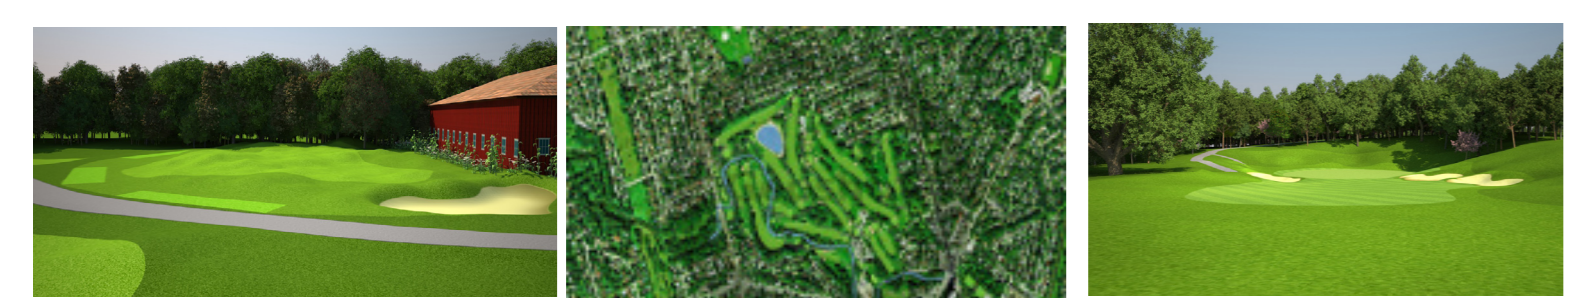

About Golf Club Graphics

Golf Club Graphics (a division of GeoShot Technologies) is at the forefront of advanced 3D visualization of golf courses. We have worldwide experience of designing all type of golf courses.

We make high quality stunning 3D flyovers, CAD drawings and graphics of golf courses. We cover all aspects of the creative process from early conceptual art all the way through to the creation of entire virtual golf courses. From the conceptual art, we can create construction level detailed CAD drawings and grade plans of golf courses such as Grading plan, Grassing plan, Landscape plan, Staking plan, Pipe layout plan, Clearing plan and Irrigation plan. We can create GIS terrain data for 3D modeling purpose from basic survey points.

3D Flyover Video Services

- Hole walk through / fly through animations
- Virtual course tour
- Interactive course tour
- Bird eye view tour

We can show actual terrain, slopes (hill or mound) in the output videos.

We cover all aspects of the creative process from early conceptual art all the way through to the creation of entire virtual golf courses from detailed architectural plans and GIS terrain data.

Print Ready Yardage Book Graphics Services

1) Creating Print Ready Color 2D Yardage Book Graphics with Measurements

2) Creating Print Ready Color 3D Yardage Book Graphics with Measurements

3) We can show actual terrain, slopes (hill or mound) in the yardage book graphics.

4) We can do accurate yardage measurements from satellite imagery using GIS techniques.

5) We can deliver print ready yardage book in .pdf, .ai, .psd, .indd & any other graphic formats.

3D CAD Drawing Services for Golf Architects

1. Creating construction level detailed CAD drawings and grade plans of golf courses

  a. Grading plan   b. Grassing Plan

  c. Landscape plan   d. Staking plan

  e. Pipe layout plan   f. Clearing plan

  g. Irrigation plan   h. Volumetric cut/fill plan

2. GIS mapping of golf courses from satellite imageries. We can do very detailed GIS mapping of golf courses.

Our Golf Course Graphics / 3D Rendering Services

- Course overview
- hole and green images
- Yardage books
- Caddy cards
- Score cards
- Pin placement cards
- Irrigation system maps
- Topographic Maps

We can show actual terrain, slopes (hill or mound) in the course graphics. Our graphics are available in all standard formats and being used for printing purposes, cart-mount / hand held Golf GPS, golf course management applications, web sites and smart phonesv
